

Free Hearts

~ ~ ~ Faith Lift ~ ~ ~

Led by formerly incarcerated women, Free Hearts supports, empowers, and organizes families impacted by incarceration in Tennessee, with goals of reuniting families, and diminishing the carceral system.

We envision a world where all of our sisters are free. Where we and our families can be restored, healthy, and whole without policing, incarceration, or family separation. Did you know...Tennessee locks away a greater share of its people than nearly any other state or nation in the world? (Source: Prison Policy Initiative <https://www.prisonpolicy.org/global/2021.html>)

Dawn Harrington, Executive Director, met founding member Alexandra Chambers volunteering at a canvassing event with Ban the Box Nashville, a campaign with the objective of petitioning for a charter referendum to remove the question about criminal conviction history from Metro Nashville government employment applications.
